

## **Fairmont Flyers Mowing Rules:**

Anybody who is cutting anywhere at the field may post a **RED** flag on the hook in front of the frequency board. This will signal all flyers that someone is over the hill cutting and does not wish to be over flown. Flyers must not fly until the cutter removes the flag. We ask that the person cutting have proper consideration for the flyers and not tie up the field for hours on good flying days. The flag will be kept in the building when not needed, near the buddy box cables.

Note : Not all cutters care if they are over flown, so it's up to the individual person cutting.
